Re: Replacement pages, dated September 26, 2001
RFI Report Addendum, SWMU 162, Zone K
Charleston Naval Complex
SC0 170 022 560

Dear Ms. Daniell:

The South Carolina Department of Health and Environmental Control (Department) approved the Navy's recommendation of NFA for SWMU 162 on September 18, 2001. Included in that approval was a reminder (memo: Susan Byrd to Jamelle Ellis) that the Navy "use the same screening values that were used in the original corresponding RFIs (Region III RBCs)."

The Navy submitted change pages to address this comment. Administratively, this document is complete. To reiterate, the Permit has not been modified to document the NFA decision for SWMU 162. The current Permit classification for SWMU 162 is CS. The Department will make the necessary changes to the Permit during the next Permit Modification to document this NFA decision.

If you have any questions regarding this issue, please contact Susan Peterson at (803) 896-4182 or Mansour Malik at (803) 896-4169.

Sincerely,

David Scaturo, P.G., P.E., Manager
Corrective Action Engineering Section
Bureau of Land and Waste Management
